This work continues to be the classic and formative study of the advancement of The Lutheran Church-Missouri Synod's system of church organization and governance. It really is as timely, if not more so, than ever before. The analysis in this volume has proven over the years to become of ongoing interest and the cause actually of controversy and disagreement, as The Missouri Synod continues the duty of understanding how better to organize itself for work in a country where there are no rules and forms imposed onto it by a central governing or ecclesiastical authority.
