In this amazing volume, Dr. Rather than simple presentation of information and results, we are taken up to the 'heart' of the matter with meaningful insights and educated interpretations - - one experiences the full spectral range of learning, including emotion. His extensive travels in THE UNITED STATES, skillful investigations, and years of study on the 'wild man' throughout world background have led to this highly authoritative function. Dr. It really is a classic work that may intrigue readers in every walks of existence. Jean-Paul Debenat, a professor of comparative literature (University of Nantes, France) with a flair for anthropology, takes us far beyond the realm of documented research on the Sasquatch/Bigfoot phenomenon. Originally released in French, the task has been translated, altered, and enhanced for the English-speaking general public. Debenat's managing of the subject is both exclusive and exciting, along with being highly factual.
