The Bank for International Ideas: How Crypto Currencies and Artificial Intelligence are creating a New Economic Order for Everyone!

[continue reading](#)

Artificial Intelligence, often referred to as AI is a type of Machine Intelligence making decisions alone similar to how individuals do. There is no doubt about the different possibilities that Cryptocurrencies and Artificial Intelligence could have in micro obligations and for emerging economies around the world. The Cornerstone for the Bank for International Concepts is as follows:  $IA > M1$  "consequently"  $IC + AI = W$  Which translate into --- Intangible Possessions (IA) is greater than Money Source (M1), therefore --- Intellectual Capital (IC) plus Artificial Intelligence (AI) equals Prosperity (W). because this transition has been taking place for over ten years, it has resulted in the overall economy of 2007/2008, which began in the usa but quickly spread through the entire entire world.I.N. Those who start using this technology and dealing with the lender for International Ideas will definitely have an edge over others. It really is in our opinion there are (6) changes occurring through the entire Global Economy, these adjustments are in an evolutionary design moving from one step to another step in a gradual, in addition to an accelerate process --- with respect to the nation or area where it is occurring. We are shifting from a --- Consumer Overall economy to a Knowledge Base Overall economy --- from a Debts Based System to Collateral Base System ---- and from Tangible Assets to Intangible Assets. At the center of the lender, will reside the M. In the context of pc research, a machine with ideal Artificial Cleverness would be a versatile rational agent that acknowledges and distinguishes its environment and works accordingly to create decisions to be able to improve its chances of succeeding at something or achieving a particular goal.D, Machine Intelligence NeuralNetwork Database, which we believe can facilitate through Artificial Cleverness economic advancement on a global scale. Furthermore;
