Our lives are becoming more and more digital everyday. What most people don't realize is there are three sectors in the cryptocurrency market today. In 2017, cryptocurrencies have moved from something a small-dedicated group of people paid attention to right into a much bigger public view. 2) systems that enable software designers to build app like efficiency in purpose built cryptocurrencies;" Additionally, there are even more methods to lose hardly any money invested just as in .com" Avoid it. Ben Bernanke, Chairman of the Federal government Reserve said "[Virtual Currencies] may keep long-term promise, especially if the innovations promote a faster, more secure and more efficient payment system." While Warren Buffett, CEO, Berkshire Hathaway said " boom of the late 1990s. It's a mirage, essentially. You will have dominant winners like Amazon, Facebook and Google in the internet space in the cryptocurrency market. Whose right? In fact, both." There may also be many more eToys, Household pets. The three sectors are 1) cryptocurrency as currency; 3) purpose built cryptocurrencies designed to better address the requirements of business or customer use cases better then traditional currencies perform today. This is true for cash as much as other things.com and webVan's - companies that raised vast sums of dollars during the late 1990s and went bust within a few years. As with any new society changing technological progress there are investment opportunities that may and will make a fortune.
