Response to Congress on Use of Decentralized Wastewater Treatment Systems

[continue reading](#)

The U.S. The agency is charged with protecting human health and the surroundings, by writing and enforcing regulations predicated on laws and regulations exceeded by Congress. Environmental Security Agency (EPA) was introduced on December 2, 1970 by President Richard Nixon. This assortment of publications ranges from historical documents to reviews released in the new millennium, and features works like: Bicycle for an improved Environment, Health Ramifications of Raising Sulfur Oxides Emissions Draft, and Females and Environmental Health. These publications outline new policies, detail issues with enforcing laws, document the need for new legislation, and describe new tactics to make use of to solve these issues. The EPA's struggle to protect wellness and the environment is seen through each of its established publications.
