Great coloring book! I really love this book! Great paper quality and great girly images. The pencils that come with the book aren't very good but it's totally well worth the price anyway! It's sort of the same encounter and hairdo in each pic with few variants, though the outfits and backgrounds are great and there's an amazing array there. Totally cute in case you are a little woman or a grown-up who loves to color as a spare time activity (it is rather relaxing, I find) this is a good quality coloring book with sharp black lines and good fine detail. There is a 'Glamor Girl' theme to the one therefore there are various dresses and high heels in addition to a few dogs, frou-frou homes and cars etc. There are lots of fun outfits to color though I really do wish there is more range with the facial skin and hair. Those of us who color probably have our own set of crayons or coloured pencils anyhow, both work well on this paper. I've not tried markers yet but this looks like even more of a crayon/pencil coloring reserve FYI. Another useful hint to anyone girly: Have a whole lot of pink and purple on hand in as much shades as possible, you'll NEED it! Hard to Find Hard to Find coloring book for kid. LOL! Happy to have discovered it here.
