Same Cupcake 500 times. I got a baby shower to throw and decided to make cupcake party favors. Mostly pics of same vanilla cupcupcake in a different cupcake paper and various coloring in the frosting. Just what a waste of money. Three Stars Thought this would have significantly more professional looking ideas in it, thus I'm a little disappointed A delicious read I'm definitely not a baker however the dishes in this book were simple enough to follow. Not really a legit cookbook... Right now was that 4 oz. To be fair it is 500 recipes and that's amazing, until you realize every single one calls for cake flour...banana cup cakes, peanut butter cream cheese frosting, and a caramelized banana slice on top. Not really Me..

Cake flour is so expensive. So now I've 500 recipes I would bake every once in a blue moon. by excess weight or 1/2 glass. Disappointed.
