

THE LAW OF BIT COIN

EDITED BY STUART HOEGNER & FOREWORD BY JERRY BRITO

Jerry Brito Et Al.

The Law of Bitcoin

[continue reading](#)

REGULATIONS Of Bitcoin is the definitive guide to navigating the rules in the dynamic world of cryptocurrency.? Written by understanding leaders in the legal cryptocurrency space, REGULATIONS Of Bitcoin addresses such topics as the intersection of cryptocurrencies and criminal rules, taxation, anti-money laundering and counter-terrorist financing regulations, securities law, customer safety, negotiable instruments, currency rules, and monetary regulation. This includes issues such as fungibility which is dealt with in a fashion that flips the conventional narrative within the Bitcoin community on its head, yet is important for any entrepreneur, developer, trader and consumer in the nascent space. ? The Law Of Bitcoin is certainly a helpful direct to novices and veterans as well. They provide relevant, up-to-date clarity in a space that's often nebulous, confusing and filled with conflicting partisan info. The authors arrive at what will be unpopular conclusions that are just possible because they're not wanting to defend special curiosity groups. REGULATIONS Of Bitcoin will be a leading resource and go-to text message both for those wishing to understand the fundamentals of how the regulation affects cryptocurrency and for all those in the legal community looking for sophisticated answers to more complex questions.It really is unique because the authors concisely and objectively explain how Bitcoin and bitcoin are lawfully viewed. This book may be the to begin its kind delving into cryptocurrency regulation in four jurisdictions: Canada, Germany, the uk, and the United States. -Tim Swanson, writer of The Anatomy Of A Money-Like Informational Commodity and Great Chain Of Numbers

Defintely worth your time This book is in depth, gives insight you merely don't think about unless you come from a legal background, and manages to stay entertaining, even though some of the required subjects of financial laws aren't the most interesting subjects to breach, Mr. Hoegner, Mr. I'd have liked more dialogue of what has not yet been ruled or resolved by the system, how do celebrations interpret or address Cryptocurrency activities in the future based on the legal system. Among the best books on Cryptocurrency I've read so far I believe it's among the best books so far written on Cryptocurrency. I recommend the publication to anyone set on understanding Cryptocurrency. I am hoping they write more volumes examining these topics in depth. Brito, and others did a fine work in becoming the reference

that anyone considering a business with a bitcoin dimension must refer to. I like the intellectual procedure for the authors, It shows they really know very well what they are talking about. The book will explain the legal framework around Cryptocurrency and how firms and courts regulate and guideline the subject.
