Ecological Politics: For Survival and Democracy

[continue reading](#)

Rejection of politics is deep and widespread. Also sincere and responsible individuals who practice it hold their nasal area while doing so. However they are repulsed by an entrenched politics rooted not only in the greed and power hunger of a dominant few, or in outmoded structures of economic and political power, but in the old millennial ontology of being distinct. It is a party of a different kind, one that frees itself from giant worldwide corporations, is fully and overtly focused on non-violence and rooted in the awareness that the people come first. Yet ecology holds the secret of success for planet and people exactly in politics. This reserve difficulties The Green Party, right now on a footing in over 100 countries, to be this party of a different kind. Though taught by elite after elite that people are separate from nature and thus from everyone and everything, this can now be observed as the fantastic mistake and a perpetuated lie from generation to generation. A fresh ontology of being related may be the gateway of consciousness to a new and thrilling politics for survival and democracy. Waves of transformation lap in barriers in the political sphere. Yet politics must be practiced, and well, if the planet and the folks are to survive. Our extraordinary times require a fresh political party animated by the ecology to be related. A clue for our potential achievement as a species lies in the fact that ecology hasn't really been tried in politics. This party knows that elections should be fair and equivalent and must enable undistorted dialogue, and that people in government should never only proclaim but practice the theory to be of, for, and by the people. Deep in ecology may be the astounding reality, scientifically examined and attested to, that we are already related.
