Reddcoin - History of the First Year

BLACK & WHITE VERSION. Reddcoin (RDD) is certainly a decentralised cryptocurrency similar to Bitcoin. This book is an in depth history of the 1st calendar year of Reddcoin up to the 2nd of February 2015 (the time of which the blockchain have been usable for just one year by everyone). It had been the 1st cryptocurrency to present a new type of timestamping (proof stake velocity) that allows users of the wallet to receive up to 5% rate of return on the holdings per year.
