Do you wonder; - The TARP bank bailouts were the largest theft ever sold. - Where has the middle class gone? - Why do my kids possess less opportunity than I did? If so, this book is for you personally! - 97% of money is created by the banks, not really by governments. - The Federal Reserve is an exclusive bank controlled by private banks. - Adam Smith did not say a low profile hand guides the markets.. - Milton Friedman and Alan Greenspan both admitted to fundamental financial errors... - Why is there so much national debt? - Corporations are employing treaties to overrule countries and democracy. - About 1/3 of the average individuals' spending is goes to banks as interest. - Government debts was static until the mid-1970's and has soared since.
