On Feb 4th, 2018, on the eve of Chinese New Year, news broke that the Chinese authorities had announced the ban on all foreign cryptocurrency exchanges and ICOs. Bitcoin cost nosedived to only US\$6,920 the next day after striking an all-time high of US\$19,783 earlier. The crypto world was shaken. The flourishing cryptocurrency trading market crashed on New Year's Day. Before that, the Chinese Yuan accounted for 90% of all crypto trades. Little did he know his invention will be quickly adopted and became the latest fad of the city, got backed by worldwide banking institutions, helped create the world's largest cryptocurrency trading platform and the 6th largest cryptocurrency in the world, the novel Bitcoin Clowns tells the tale of a young, talented programmer Jong He who plunged into the mysterious and dark world of cryptocurrency and blockchain systems because of a family pet cryptocurrency he created seeing that a joke to mock the ICO speculative madness occurring all over the world. The critics announced that China practically killed Bitcoin trading, although some applauded its move, stating that China saved the world from a mega cryptocurrency bubble in the nick of time. Initial cryptocurrency Billionaire, and even attracted adoption from a slew of criminals including South American counterfeit drug cartel and anonymous Eurasian hackers slash Robin-hoods. For the time being, his cousin Cao got disappeared due to financial troubles at his business that sold ill-designed cryptocurrency funds of debatable legitimacy and his partner was found dead at work after a customer lost a huge amount of investments passing through their hands. His cousin's Could Jong succeed, or would he end up being sacrificed and fade into obscurity in the most recent, fiercest combat of the hundred years on the digital realm for the kind of new digital gold and the power to control key businesses and even governments around the world? The action-packed fiction told in initial person perspective follows Jong He, an extremely intelligent but socially awkward Chinese programmer and his friends around the financial capital of the country in the cat-and-mouse chase of the biggest cryptocurrency heist of our period. Jong had to depend on his exceptional fortune, incredible courage and loyalties of his close friends once again to find his cousin and retrieve the lacking thousands. Other sketchy business partners were reluctant to simply tell him anything and law-enforcement was grossly not really acquainted with these new kinds of financial instruments to see through the solid plot of deception before them.
