Stowing Away On Display: Unravelling the Cloak and Dagger Saga of Satoshi Nakamoto

[continue reading](#)

The crypto world has spun in circles searching for who the true Satoshi Nakamoto is. Sometimes the best place to cover is in plain sight. Is definitely he an illusion developed by the Cypherpunk cryptographers. Did he ever really exist? Could he be considered a expert of persuasion hiding best in front of us? The Bitcoin creator existed on-line long enough to get his digital currency ready to go then abruptly retreated back again to wherever he originated from.
