Man vs Money: Understanding the curious economics that power our world

[continue reading](#)

Where is all the money? How does a country go bust? Should I receive a commission in Bitcoin? Stewart Cowley distils these complexities in this essential guide to modern-day cash and our romantic relationship with it. Getting it, keeping it and making more from it has been one of man's main preoccupations for the past five thousand years. Along the way we discover how the statistics that govern the world are based on guesswork, why stock markets are such as a wandering drunken guy, what you need to live just like a millionaire and why cooking has made guy the dominant species on earth. And it's just about to get more curious; the arrival of modern banking, crowd funding, investments at the contact of a smartphone and digital currencies means, for many of us, it really is a lot more complex. Wherever you go, whatever you do, nevertheless, you live life, money plays a role. From investing in a sandwich to earning a wage, going on holiday to performing the lottery, how cash and economics governs the world is fascinating. Man vs Money shows you how understanding a little more economics may improve your daily life.
