Inaccurate subtitle Aside from short description about how exactly to mine ether right now there is nothing in this brief book that explains how exactly to use it in investing. Rather, it's a rambling explanation of Ethereum concepts and background, written in conversational style. It is filled up with undefined terms and acronyms, although most savvy enough to value cryptocurrency will know almost all of them.! All the information (Ethereum history, benefits and drawbacks) is available for free in internet. so very bad. I clearly not advocate this book or report. On the other hand, the savvy readers will likely already know most of what is in this short reserve. Its OK Its OK Don't waste your time.This book does not provide any kind of strategy tips or advice for the brand new investor. Avoid it, no true value in this record!The other reviews will need to have been bought i cant find other option.
