Good book for newbies. This book does a good job of summarizing the basics of the cryptocurrency market... Bitcoin is on the rise now, so more and more people are thinking about this investments in the cryptocurrency... Concise, unpretentious, Highly informative. Norman provides an overview of every part of the area :mining, trading, ICO, etc.. We had know the

fundamentals of Bitcoin and the blockchain after reading sites and other books this season. The strongest point of the book is tutorial on how to trade speculate with cryptocurrencies. This book has up so many misconception I had about bitcoin Highly recommended for beginners. Makes a great reference book and readable and understand. This book provides great explanation as how bitcoin works. While it did go above my head in many areas it still was a great explanation on so many fronts of the complete bitcoin aspect. Highly recommended it to someone willing to mentally dig a little and challenge yourself. Good one ! You'll also learn about other styles of cryptocurrency. 5 stars Bitcoin book. Top book on the subject of trading. Cryptocurrency is now among the future money sources where can be gained a passive money. I want say big because of Jared. Cryptocurrency trading. There is usually nothing mind blowing here, no rocket science, nonetheless it has been incredibly ideal for me as a beginner. With news about futures on bitcoin, it appears to become a brilliant opportunity. At the same time, we are able to see some issues with transactions when the amount of participants increases therefore quickly. It gives an excellent introduction to cryptocurrency trading for the novice.. This book very helpful i got a lot of things which is really beneficial to me. These books offer the all needed information in order, to create a decision..Its' good shoe for someone serious about getting into the space.. Jared Benson = money. Its second publication from Jared Benson and I could promise you that in the event that you buy this reserve you can make 10.000\$ easy. Useful Overview I read this clear and concise reserve in one sitting. As often - you should decide if you will spend money on Bitcoin for yourself.! Good book. 5 stars. Goes over all of the main points of cryptocurrency, like the background, different coins and technique for investing. After reading this reserve I understand how to make cash via cryptocurrency. I suggested this book to anyone who would like to know more. Probably, blockchain technology will live, develop and we will see many great adjustments connected with it. I've read a whole lot of blogs of individuals claiming they have earned a lot of money in this Cryptocurrency trading. This book give me information how to trade and use some strategies. Passive income from cryptocurrency. What they are, how they are style, how they work. Very good overview of this technology Does a decent work of explaining the various pieces of the crypto currency technology. And how to start investing. Highly informative If you you've heard of bitcoins, this publication delves deeper into the subject. thanks author This book have many information and facts about cryptocurrency trading. This book was a easy read and very informative. If you are new to cryptocurrency, this is normally a good book to start with. I recommend this reserve to all who would like to learn this topic.
