The two-volume set, LNCS 9326 and LNCS 9327 constitutes the refereed proceedings of the 20th European Symposium on Research in Computer Security, ESORICS 2015, held in Vienna, Austria, in September 2015. The 59 revised full papers presented were thoroughly reviewed and selected from 298 submissions. The papers address problems such as for example networks and Web protection; crypto application and attacks; system security; risk evaluation; protocols and attribute-structured encryption; cloud security; personal privacy; authentication; recognition and monitoring; code analysis and side-channels; guidelines; and applied security.
