This book constitutes the thoroughly refereed post-conference proceedings of the 3rd International Conference on Pattern Recognition, ICPRAM 2014, held in Angers, France, in March 2014. The 18 revised complete papers were cautiously reviewed and selected from 179 submissions and describe up-to-date applications of Design Recognition techniques to real-world problems, interdisciplinary study, experimental and/or theoretical studies yielding fresh insights that advance Design Recognition methods.
