This book constitutes the proceedings of the 7th International Workshop on Enterprise Applications and Services in the Finance Industry, FinanceCom 2014, held in Sydney, Australia, on December 12, 2014. The nine papers presented were carefully reviewed and selected from numerous submissions. It reflects on technologically enabled opportunities, implications, and changes because of the introduction of new business models or rules related to the financial services market and the financial markets. The workshop spans multiple disciplines, including technical, service, economic, sociological, and behavioral sciences.
