This book constitutes the refereed conference proceedings of the 12th International Workshop on Data Privacy Management, DPM 2017, on conjunction with the 22nd European Symposium on Research in computer Security, ESORICS 2017 and the First International Workshop on Cryptocurrencies and Blockchain Technology (CBT 2017) held in Oslo, Norway, in September 2017. The DPM Workshop received 51 submissions that 16 full papers were selected for presentation. The papers focus on challenging problems such as translation of high-level business goals into system level privacy guidelines, administration of delicate identifiers, data integration and personal privacy engineering. The selected papers cover areas of identity management, smart contracts, soft- and hardforks, proof-of-functions and proof stake as well as on network coating aspects and the use of blockchain technology for protected connect event ticketing. From the CBT Workshop six full papers and four brief papers out of 27 submissions are included.
