This book constitutes the refereed proceedings of the 18th Annual International Cryptology Conference, CRYPTO'98, held in Santa Barbara, California, USA, in August 1998. The papers are arranged in topical sections on chosen ciphertext protection, cryptanalysis of hash functions and block ciphers, distributed cryptography, zero knowledge, and implementation. Also included are two invited presentations. The volume presents 33 revised complete papers selected from a total of 144 submissions received.
