Advances in Cryptology -- CRYPTO 2012: 32nd Annual Cryptology Conference, Santa Barbara, CA, USA, August 19-23, 2012, Proceedings (Lecture Notes in Computer Science)

This book constitutes the refereed proceedings of the 32nd Annual International Cryptology Conference, CRYPTO 2012, held in Santa Barbara, CA, USA, in August 2012. The papers are structured in topical sections on symmetric cryptosystems, protected computation, attribute-based and practical encryption, proofs systems, protocols, hash functions, composable security, privacy, leakage and side-stations, signatures, implementation analysis, black-box separation, cryptanalysis, quantum cryptography, and important encapsulation and one-way functions. The volume also contains the abstracts of two invited talks. The 48 revised full papers presented were properly reviewed and selected from 225 submissions.
