This book constitutes the thoroughly refereed post-conference proceedings of the 18th International Conference on Financial Cryptography and Data Security (FC 2014), held in Christ Church, Barbados, in March 2014. The papers are grouped in the next topical sections: payment systems, case studies, cloud and virtualization, elliptic curve cryptography, privacy-preserving systems, authentication and visible encryption, network security, cellular system security, incentives, video game theory and risk, and bitcoin anonymity. The 19 revised whole papers and 12 short papers were carefully selected and reviewed from 165 abstract registrations and 138 full papers submissions.
