You would think it would be funny! I bought the reserve, signed and autographed, thinking my husband want it. Laughter is the best medication." I believe it's okay. But my husband's first comment to me was, "He's much less funny as he thinks he's. Sort of funny. But it's the kind of humor born of someone who has an axe to grind. It may be funny, but it's too stuck in biases to essentially work. His other publication, "Ghost of a Chance," is good. I recommend this book to provide to yourself also to all those you care about. Hope he corrects it, since it is actually a decent book! AN EXCELLENT Dose Of Humor Everyone must laugh nowadays with the sad situation the world is in. When I am requiring a quick choose me up, I grab this book and read a few pages. If you need a good laugh, you need to read this reserve. Interesting mystery, well written, but there's a plot gap that's disturbing. It makes a great gift. A great bathroom reader, I thought.
