This book was originally published prior to 1923, and represents a reproduction of a significant historical work, maintaining the same format as the initial work. We enjoy your knowledge of these occasional imperfections, and sincerely wish you enjoy seeing the reserve in a format as close as possible to that designed by the original publisher. While we make an effort to adequately clean and digitally enhance the original work, there are occasionally situations where imperfections such as blurred or missing web pages, poor pictures or errant marks might have been introduced due to either the quality of the original function or the scanning process itself. We believe this function is culturally essential in its initial archival form. Despite these occasional imperfections, we have brought it back into print within our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. Although some publishers have opted to use OCR (optical character recognition) technology to the procedure, we believe this prospects to sub-optimal results (frequent typographical errors, strange character types and confusing formatting) and will not adequately protect the historic character of the initial artifact.
