Most love stories have a nice, cute couple and a vintage fashioned villain. But there remain certain untold stories where in fact the few isn't. And who was simply the 17th girl? Of all girls Arman had met in his life, he believed his gal was different and he still loved her, regardless of wherever she was. Besides becoming ditched by his girlfriend and his friends in his past, he believed his new lease of life in engineering would be great and various from his previous, and that he would come out to become a great engineer. Was he in a position to fulfill his engineering's have words! Did Armaan fall for just about any girl once again? He was established to focus on studies and to never ever fall again in like a really cute and the villain lies within oneself, revealing itself only over the time. Read it all in Armaan's But was the brand new life different anyway?
