Best Bitcoin Guidebook Yet! This book is an instant read, but still very comprehensive and useful. Get it! This book explains all the technical jargon such as blocks, blockchain, hashing, wallets, private keys and mining. I didn't know very well what any of those terms meant before, but this reserve explains it perfectly. Jargon is certainly demystified, terminology is defined in simple and easy to understand language, and the potential for bitcoin as a future currency is explored. Five Stars Very easy to understand. There's also a lot of up to date info on mining and mining pools - which is strictly what I had a need to know. After reading this I feel I can make a proper informed decision as to whether I dive into Bitcoin or not. (I will!) Overall, I definitely recommend this. If you are thinking about Bitcoins, then this publication will be gold to you! Very interesting indeed An excellent summary of bitcoin, its background and development as an alternative currency to the existing monetary system. Whether you want to invest in bitcoin, generate, transact or find out more, this book covers it all. This complex subject is broken down into bite-sized topic headings, which made it very easy for me personally to read. Well researched, well structured, and really worth the read. Extremely interesting indeed. Five Stars This is an excellent read. Explains all the jargon in a crystal clear, concise language.. Most ebooks about Bitcoin explore buying, getting paid and "mining" this exciting alternate currency. Written in plain english. You will see everything you need to know about Bitcoin in here, whether you are looking at buying, mining or getting paid in Bitcoin. There exists a whole section specialized in Bitcoin simply because an investment, that i haven't seen in any kind of other Bitcoin ebooks. Demystifies the whole subject matter in easy to digest topic headings. very educational Poor, no realistic Two stars. Poor, zero realistic. Great read- thanks Yvonne I came across this concise book easy to comprehend without the facts being compromised. It's an excellent begin to understanding the brand new cash systems that are getting into becoming. Anyone that really wants to learn about Bitcoin would find this a must buy. This book also addresses Bitcoin as an expenditure which can be what I needed to understand. Very helpful guide to somebody like me, who's a complete novice. Grab it! Great starter Easy to read.
