Altcoins: an alternative currency primer

[continue reading](#)

This instructional primer is written for the new altcoin trader or anyone attempting to learn about trading the new digital currencies. Learn to trade altcoins and how exactly to pick promising altcoins and steer clear of scamcoins. Learn where you can go on the internet to maintain your finger on the pulse of the brand new, and fast moving alternative cryptocurrency scene. This book shows you how to profit from the altcoin explosion.

Lots of specific info, in a short volume. All in all I prefer a simple, short and straight-to-the-point reserve that delivers what it guarantees (such as this one) when compared to a 400 pages/4Kg mammoth full of mumbo-jumbo. But the author does a good job of listing a great number of resources (exchanges, forums, etc.) where one can go, for further analysis. Thanks, Lamont. There is also a chapter on avoiding scams. Just starting out this week, but this has helped to supply some structure, and areas to start out. I am rating this book as 5 stars because it delivers what it guarantees which is the general understanding of the idea of altcoins. Fulfills its objective The book is a very straight-to-the-point short book... We was disappointed because I thought this book would contain some complex analysis pointers. Instead, it's mainly a list of altcoins, which to avoid and which to consider trading. Although the reserve did have some decent guidance on cryptocurrency trading generally. I actually was disappointed because We thought this publication would contain some technical .If possible, please continue steadily to update the manual, as circumstances change. The book also has a list per category which range from must-have got altcoins from the altcoins you should prevent at any costs. There's at the least explanatory material, which means you will definitely have to refer to other resources, Youtube video clips, and such. So, 5 stars it is.
