Entertaining and Informative I knew nothing about Bitcion before scanning this affordable e-book. Now I understand more than enough to speak intelligently on this issue. Chock full of information regarding Bitcoin. I honestly got no idea what Bitcoin was before buying this; Great

place to start for a newbie. Solid Intro Isgur's light read has an interesting check out the background of Bitcoin, which given the plethora of info sites out there for providing some explanation on Bitcoin was appreciated, since We was interested on learning about the topic but had problems muddling through the info available on the net. Lots of resources cited in the book which can link you back to even more reading if you want to delve further as well. All in all really worth the main one buck if you're looking for a crash program in Cryptocurrency 101. Great place to start For anybody who have heard to word "Bitcoin" floating around with no idea what it was about, this book teaches all the basics you need to know and provides you a few tips on how to proceed with that knowledge. Awesome intro to Bitcoin As a novice to the subject I found the book interesting and easy to follow. Highly recommended. The best way to learn about Bitcoin quickly! This definitely helped myself understand the Bitcoin issue which is what I was after. Can't wait to settle a cafe tab at a restaurant with close friends using bitcoin! now I understand Great explanation from a clear future Nathan Myhrvold.This is definitely a trend I am following Examined with CPA friend and this individual said it had been a great item 2 yrs ago however, not as great now It is written alright but I still don't realize how bitcoins function. Easy read. Easy read. I will possibly take a stab at it myself.! I will recommend this e-book. I had in fact heard it from a pal. Now I can match conversations concerning this Internet currency. Fantastic! A concept confusing to many put into laymans terms. Some web sites are setting up scams on this products. Awesome Read I love this reserve. Great ReadThis reserve has start my eyes of what to come in the Future. Utilized links in his book to create a wallet at Coinbase. Checked with CPA friend and he said it was a great item two years ago but not as great today. A great read if you are looking for a synopsis of how Bitcoins work and how you may use them. Become CAREFUL! I would think about this book/essay required if anyone was seeking to learn about Bitcoins!! Its a quick and easy read that avoids too much technical jargon that could confuse beginners. Made me need to delve further into this phenomenon. Many thanks.
