Prologue There are a few books approximately Bitcoin and as I can say every one of them is worth reading. Therefore I would like to thank everyone who has shared their very own personal success tales. You need to search in on the web message boards and internet forums if you want to read about their success tales. Of program there are tales from accidental success too but there are also individuals who gave this fresh method of payment a opportunity and believed in the community. I learned a whole lot about crypto-currencies, its possible applications and above other things great stories about people. It was such an excellent time conversing in boards, making conference calls and sometimes meeting in person. The seek out stories of Bitcoin users showed me many and perse people experiences. A few of them were real while some of these were fabricated but each and every tale brought the realization that we are on the 1st techniques with Bitcoin. There are simply so many options and many of these were new and interesting ideas. The last months I spent researching because of this book were really awesome. It really is unfortunate these stories aren't well-known because they are truly inspiring. But there are just a couple books which focus on individuals who use Bitcoin in their lifestyle. They show what's possible when we make use of Bitcoin and the countless ways to boost your capital. I was excited about each and every story and the outcomes from using Bitcoin. In this book you can browse great success tales from actual people and you can have an idea of all things that are actually possible if you integrate Bitcoin in your daily life or in your business. One of them might be your workmate, friend or neighbor. The individuals who used Bitcoin as a kind of payment or invest in it are my heroes because they help to push Bitcoin forward as a genuine alternative to established types of payment. Also I wish to say thanks to most my friends who helped me to find those peoples and tales. Without your passion this book won't be written!
