The Dawn of Liberty: By 2050, an underground network and economy is thriving built on crypto currencies and a free and open global mesh network. But this is proving to become more challenging than anticipated. In this forth episode, The Operation, the cypherpunks enter CHA Sectors headquarters. The free wheeling marketplaces and innovative solutions are challenging the power of the state and their crony companies. The mesh is normally resilient, crypto currencies strong, and hi-tech software and hardware built-in basements all over the world stays one step ahead. While crypto groupings are aligned in their goals, and collaborate with the united alliance to build and keep maintaining the global mesh, there is also infighting and power struggles between crypto currencies, crypto currency forks, and between ultra rich large crypto holders. The New World Purchase series follows cypher punks on a mission to weaken and undermine a huge state backed corporation, and further raise the influence of the crypto economy. The condition, resorting to secret laws and mob style methods, intend to remove this free network and anyone using crypto currencies.
