By 2050, an underground network and economy is thriving. Built on crypto-currencies—the freewheeling marketplaces and innovative services are challenging rigid Condition powers and their corporate cronies. The Condition, resorting to secret laws and regulations, black-sites, and mob-style strategies, intend to remove this free network and anyone using crypto-currencies. The Black Advantage Octalogy comes after the adventures of cypherpunks pursuing a life of privacy and independence through their mesh networks, crypto-systems and crypto-currencies. more hazardous and complicated than anticipated. The mesh is certainly resilient, crypto-currencies solid. an open global mesh network—Abandoning Victor Mason's underground holdout, and confronted with annihilation from an orbiting beam weapon, Sian Meesang, Valentina Zalesky, and Yakim Sliva trek through rainy Shanghai's industrial slums looking for refuge. something that might prove just seeing that dangerous. But that is proving a difficult job—high-tech software program and hardware built in basements around the world stays one step ahead. In a huge derelict service once occupied by task-grasp Gilroy, the exhausted four encounter surreal cast-offs of his function—and a handful of lethal sentinels who live by a fierce code of high-tech paganism. When flaming death shreds the sky and lines of loyalty clash, Mason and the others must battle. They create code, hack equipment, and expose authoritarian deceit and brutality..and contact secretive Gilroy directly— Crypto groupings, aligned within their goals, collaborating with the united alliance to build and maintain the global mesh, nonetheless are troubled with infighting and power struggles between crypto-currencies, crypto-currency forks, and ultra-wealthy large crypto-holders.
