By 2050, an underground network and economy is thriving, and terrible trauma in his past, the freewheeling marketplaces and innovative services are challenging rigid Condition powers and their corporate cronies, more hazardous and complicated than anticipated. But that is proving a difficult job— The mesh is resilient, crypto-currencies strong, an open global mesh network— The State, resorting to secret laws, black-sites, and mob-style methods, intend to take down this free network and anyone using crypto-currencies, high-tech software and hardware built in basements all over the world stays one step ahead. Crypto groups, aligned within their goals, collaborating with the united alliance to build and maintain the global mesh, nonetheless are troubled with infighting and power struggles between crypto-currencies, crypto-currency forks, and ultra-wealthy huge crypto-holders. The Black Advantage Octalogy comes after the adventures of cypherpunks pursuing a life of privacy and independence through their mesh networks, crypto-systems and crypto-currencies, but could it be perfect? After the crude low-tech assassination attempt on Gilroy, he reveals a never-before-seen human vulnerability— Built on crypto-currencies— Kawabata's tank-like transport heads north for the vast Gobi rangelands, and rendezvous with Gilroy's sensor-cloaked X-91, a gigantic triangular aerial vehicle built years ago in America's Region 51. Managed by a DarkWeave mainframe supercomputer, the X-91 may be the most formidable (and key) tactical intelligence platform on Earth, and vital— They create code, hack hardware, and expose authoritarian deceit and brutality. When among those images displays Sian's father under intense duress, and an obvious White Fist triumph, the future of the Free Mesh appears even more threatened— The curved hyperwall display dominating its command primary captures imagery and data from around the globe—than anyone could have imagined....
