Satoshi Nakamoto

Bitcoin Manifesto: ONE CPU ONE VOTE (Heterodoxa)

[continue reading](#)

Initial annotated and commented edition of the masterpiece of the mystical Satoshi Nakamoto, inventor of Bitcoin, the digital currency on everyone. However, few noticed that the innovative power of Bitcoin isn't strictly financial, but it fundamentally impacts the creation of political consensus, by transforming it into a technological mechanism. Exactly because of this, today's edition is enriched simply by a critical apparatus which should make possible, also for the much less tech-savvy reader, to comprehend and reflect on such a key phenomenon of our times.
