By 2050, an underground network and economy is thriving. Built on crypto-currencies—an open global mesh network—particular leaders of the United, and of the even more violent splinter fork—The State, resorting to secret laws, black-sites, and mob-style techniques, intend to remove this free of charge network and anyone using crypto-currencies. But this is proving a difficult task—have individually vouched for all working in the research/creation labs. The mesh is usually resilient, crypto-currencies strong...high-tech software program and hardware built-in basements all over the world stays 1 step ahead. Crypto groupings, aligned within their goals, collaborating with the united alliance to build and maintain the global mesh, non-etheless are troubled with infighting and power struggles between crypto-currencies, crypto-currency forks, and ultra-wealthy huge crypto-holders.. When the service shakes from an enormous explosion on the Gobi range-property above, all present are stunned by the reality of an enormous loss. Seemingly safe in the Gobi yurt-quarter atop the vast underground facility, Sian's ongoing battle against the daily anxiety of his hijacked life, and constant worry over his parents' fate, has the others deeply concerned. Afterwards in the subterranean Prototype Lab, Sian and Kawabata rush to perfect the flying mesh-nodes, while hundreds of foot above a psychopathic assassin prepares to die to be able to exterminate Gilroy. the freewheeling marketplaces and innovative services are challenging rigid Condition powers and their corporate cronies. more hazardous and complicated than anticipated. Gilroy reminds a fatigued Victor Mason that this is battle; that the Free Mesh Network— Victor analyzes surveillance video hacked from State/White colored Fist HQ, and confirms a dark speculation...fate willing—South America from becoming desert waste. will dominate the globe of 2050 and spark a transformation crucial to conserve Ireland from devolving right into a slave-owner's paradise. The Black Edge Octalogy comes after the adventures of cypherpunks pursuing a life of privacy and independence through their mesh networks, crypto-systems and crypto-currencies. and derail the USA's police-state, where the rich inhabit armed walled-off estates and the other 99% fight daily through frequent killer tornadoes only to feed themselves. The crypto-economy—.won't be cryptic. Gilroy assures everyone with him since fleeing Shanghai that Andreas and Assange—once in place— They create code, hack equipment, and expose authoritarian deceit and brutality...and the genuine chance for losing the war....
