Great Information I had zero clue what Bitcoins were before this book. I did so not know very much about bitcoin when I purchased it and knew bit more after I read it. Very superficial. He even describes how to make sure your protection with trading and "banking" your bitcoins. Great read, great information and written in a readable format. The so-known as founder will not accept credit for it, which this book will not mention. I was no closer to understanding them after reading each one of these sites than I was before. This book has changed that. It really is written as bottom level and easy to understand reading level. A bit of coin mining I have read quite a lot of blogs about this subject matter of bitcoins. Sometimes I did feel that the explanations could have been clearer. These were winded in some bits, but generally had a point. There may be the old saw, you get everything you ... There may be the old found, you get everything you pay for. lets just state bitcoin coin could make you money, they are able to actually make you a lot of money this book reveals some detail details that may increase the money in my pocket. The book is written exactly for people like myself who are interested in what the Bitcoin business is all about. The reserve gives clear definitions of the basics and how to buy, sell and trade bitcoins both in person and online. A great book as helpful information on Bitcoin! I chose this book away of curiosity. It totally glossed over the bitcoin mining element, but for \$2. I today clearly understands it and try it sometimes. lets just say bitcoin coin can make you money, . Thanks Daniel for a very informative book. Teach me about bitcoin Nice guidebook for bitcoin. Actually i have no idea about bitcoin and steps to make real money with bitcoin. It's seems interesting though i'm child in bitcoin knowledge. Find out many point abut that. Great It ok I must say i expected this reserve to provide me more deep understanding of bitcoin which it carry out as far a base knowledge. This is a great reserve for newbie like me.99 I didn't expect this book to comprehensive. As you go through, you will know everything presently there is to know about bitcoins, from the origins, that are not completely agreed on. Four Stars (305 places) Informative but brief guide for beginners. this is a great guideline for me especially on trading... Though frequently untrue, in this case it is definitely.its the future gold so invest now
