

R. S. TUMBER

CRYPTOCURRENCY

— THE NEW GOD —

R. S. Tumber

Cryptocurrency: The New God

[continue reading](#)

Finally! He begins with a synopsis of monetary transactions and the characteristics that make cryptocurrencies unique. Previously several years, the rise of Bitcoin and a number of other cryptocurrencies have engendered very much discussion (and consternation) available and tech worlds. S. In this timely reserve, R. While many have embraced the new currencies and the possibilities they offer, numerous others have released dire warnings about the possibility for crime and hidden transactions. Tumber requires a broad appearance at cryptocurrencies and at how they function. A simple yet extensive guide to the new form of money - the digital money of the future. He will go on to go over the implications for crime and regulations, and examines current cryptocurrency legislation. The final chapter appears at the continuing future of cryptocurrency and its myriad possibilities.
