This book constitutes the refereed proceedings of the 4th International Conference on Bioinformatics and Biomedical Engineering, IWBBIO 2016, held in Granada, Spain, in April 2016. The 69 papers presented were carefully examined and selected from 286 submissions. The scope of the conference spans the following areas: bioinformatics for healthcare and diseases; assistive technology for people with neuromotor disorders; human being behavior monitoring, analysis and understanding; design recognition and machine learning in the -omics sciences; and resources for bioinformatics.
