Just OK. One Star Weak effort to explain a fascinating phenomenon. If you prefer a book that may explain conditions such as for example blockchain, encryption, digital signature then this is a good one to read Five Stars A thorough guide to and background of Bitcoin, wish there will be a updated version. Hardly ever really delving in advantages and disadvantages The book rambles thru the many uses of Block Chained registures, hardly ever really delving in the advantages and disadvantages of their use. It really is OK. It is a quick read, so you can get a simple understanding in a short time.. Five Stars Excellent comprehensive evaluation of cryptocurrencies. Recommended Five Stars Very interesting book, well done Great read A very informative book. Great read Blockchain, encryption, digital signature explianed !!! It runs to the essentials and to the primary points regarding this bitcoin business.
