Great Launch to Bitcoin! This book provides simplified and clear knowledge on what Bitcoin is about. Read just the sample and it is incredible how badly written it really is. I wish I had

invested several years ago! I wish the author would provide a course (feasible on Udemy) to give more details for the serious trader. Great Starting Book I found it easy to read and enough information to inspire me to buy bit coin mainly because a long-term investment ,also to do more research in mining bit coin. One Star yet another book that try to get more sale by title. DONT BUY One Star The book is written such as a high school paper.. As poorly written as the 5 star evaluations here. Also, the design is very similar to all or any the 5 star testimonials here. It really is an easy examine. The distance is perfect. Great I enjoyed ready this publication!.. It opened my eye to the amazing potential that buying Bitcoin offers. It was very helpful and informative... Extremely suspicious. It had been repetitive with little info..Read the sample before buying!
