In *Go To*, Steve Lohr chronicles the history of software from the early days of complicated mathematical codes mastered by a few thousand to today's era of user-friendly software and over 6 million professional programmers world-wide. With original reporting and deft storytelling, Steve Lohr shows us how software transformed the globe, and what it keeps in store for our potential. Lohr maps out the unique seductions of programming, and provides us a romantic portrait of the peculiar kind of genius that is normally drawn to this blend of art, research, and engineering, introducing us to the movers and shakers of the 1950s and the open-source movement of today.
