Penny Press Selected Puzzles Crypto-Families *Quantity 74* *New* - This is a collection of more than 300 selected puzzles from the editors of Dell, only available directly from publisher. What in a Crypto-Family members list are related to a single theme or category indicated by it's title. Each Family members has it's personal code. A Crypto-Households is a listing of related words in a simple substitution for the correct one. The example provided is definitely a clue to the type of words to expect in the list and will help you do you know what some of the phrases are. To break the code, search for words with unique letter patterns, such as for example repeated or dual letters. . Hours of great puzzle fun! When a word in the list is definitely correctly identified utilize the decoded letters to help decode other terms in the Crypto-Family. PLEASE NOTE: All of our puzzle books are near mint to mint or better, in condition. In a few instances there might be slight use or creasing to the cover because of the cover softness. Thank you for your curiosity and please be sure to observe our additional listings for more great books and collectables. In no case will the contents of the book be affected.
