This book is the 1st one written in Traditional Chinese in the world by me and translated into English by Josh Deng, Doreen Hong in Taiwan. I would like to introduce the data of Bitcoin and blockchain to improve the application, not only in financing but politics, with the publishing of the little book., we do not have to know the specialized details of bitcoin and blockchain, just as we don't need to know Thermodynamics, but we get car everyday.s" We have no idea what internet can do for us (such as for example calling an Uber), we do not know where Bitcoin and Blockchain technology would lead us to, but it is critical to provide the knowledge (for instance: You don't know what the SSL (protected sockets layer) is, nevertheless, you understand that you could securely see the page to make use of http " We are at this point as time go back to 1996.The purpose of this book is to help make the idea of Bitcoin and Blockchain accessible, and you won't skip the Bitcoin business opportunities. We need to know some knowledge of bitcoin and blockchain.I am hoping that my reserve as a popular science book could be bedside reading, and you could always come back and read it with fresh ideas.
