A good introduction of cryptocurrency This is a great resource for beginners, who are being introduced to cryptocurrency for the first time. It won't tell you the next greatest currency or give formulas on how best to invest in crypto. Some helpful tips but nothing of real substance, nothing . Look for another reserve that does a more satisfactory job of explaining the subject matter The booklet was small and IMO needed to flesh out items which seemed unimportant? Thanks for removing worries! Instead it offers a brief introduction to the essential aspects of digital currency. Would recommend it before you start investing in Cryptocurrency. Solid suggestions that manages objectives while encouraging experience. Great beginners instruction. No real "trading" information, lots of filler pages. Solid This book has good, basic info. Can't wait to start!. Helpful. An excellent beginner's reserve. Found it useful. Easy to understand.. I am excited! It is recommended for the beginner trader. but are. Some helpful tips but nothing of true substance, nothing a couple of hours on Google won't. This can help me plan and start the blueprint. Four Stars Good book so you can get familiar with what crypto currency is usually. Great basic information! Great basic information!
