Way too many grammatical errors This book may be informative but after reading 10 pages I just cannot finish it because there are too many grammatical errors! I came across myself heading back to starting of a sentence to reread so that I can try to make sense out of the error. Not good enough details for technical folks This book just good for people searching for advanced concepts. Inadequate details for technical folks. I was expecting more technical details. It was hard to follow A quick read that gives you the basics clearly, . Four Stars clear and logical One Star A great deal of spelling and grammatical mistakes. A quick read that gives you the basics clearly, nonetheless it desperately might use the solutions of a solid Editor (or at least a Grammar Check program) to clean up grammar, sentence structure and gobble-gook removal before about more reserve is printed...
