This was a great book. I recommend this publication to all my nerds out now there. That's a tiny bother. I learned a huge amount of things, not only about Ethereum, but finance and economics and taxes and holy cr*p our whole program is a shell video game. It reads just like a fiction novel, very liquid and quick. In any case, blockchain technology and the sectors which have grown around it certainly are a lot more complex and, dare I state it, sustainable than I had thought. It reads like a fiction novel This was a great book.
