As an old man who used to instruct IT, ... It is certainly a summary of TOR, anonymity, and the Deep Internet that encourages, really pressure, exploring more detailed resources, since it assumes the reader is a lot more knowledgeable than I am. As an old man who used to teach IT, this is a frightening expose.

MANY THANKS! For 9 dollars, it's worth it. The writer is too unfocused and creates therefore many distractions from the material that he's said to be covering. Breaking all of the rules of great writing! The rest of the 2/3 give concise instructions for setting up Tor and several other tools for establishing (in the event that you haven't blown it already) and maintaining personal privacy and anonymity along with links to these equipment and further explanations. This is a fantastic guide with enough cautions and warnings to scare the crap out of me! The above feedback apply to the first 1/3 of the book. From what I've read (just started) it's best up my "alley". Cliche, flowery language, meaningless phrases, lack of focus on the subject, it's all here. By enough time you get to the end of a chapter, you won't have discovered about the topic matter. Upgrade 1/21/18 - My apologies to the writer. This isn't a matter of specialized ability on my part; I'm more than capable of understanding this material. Five Stars Thank you! My bookmark reaches page 60 and offers been for about 2 months. It's as well awful. Unfortunately I just couldn't do it. IT REALLY IS that bad. Find yourself another book on the subject; you'll be doing yourself a favor!! One Star nothing really detailed. From what I've go through (just started) it's ideal up my ... The author breaks about all of the rules of great writing - completely to the detriment of learning the materials! I'm a patient reader and I really tried to make this work as a reading and learning knowledge because the subject matter matter is vital that you me. Must buy!! Knowledge is power!! Five Stars Lots of good info in this book. Tor Good book Must have Learned a lot out of this book Grat book! Exceptional book, great shipping. It is suffering from too little a Table of Contents, index, references, citations, definitions, appendices, etc. learned a whole lot from it.
