This book will show you everything I learned for the past 6 months of trading and investing Cryptocurrencies. *DISCLAIMER* This reserve is certainly outdated since August, I'll update it starting 2018. With this book you will be buying, trading, and securing your crypto, NOT JUST BITCOIN. So if you need a reserve to tell you all, this can be for you, don't listen to the so called masters after you read this publication and find the true informers of crypto. This reserve includes the whole spectrum and my recommendations of real people who do assist in this field. Many people claim these high claims that are just outrages and aren't also true, this book tells you the truth.
