BITCOIN behaves like gold or silver. But there exists a lack of understanding of crypto-currencies. The book contains information on what crypto-currencies are, how they are created, bought, sold and how money makes money on it. In 2009 2009, the owner of 10,000 Bitcoin could only buy 2 pizzas. Just how much I lost simply because I was scared of losing it. After buying two pizzas, the owner would have a solid modification, to which he could purchase a whole restaurant chain to sell pizza. That is a fundamentally new and extremely advantageous chance for those who learn how to invest. " In December 2017, by the time the reserve was written, even with the crash, the same amount of cryptocurrency was about 138 million dollars. Paolo Cuello"
