Five Stars Best book on Crypto out there Great book! I have no idea much about the technology itself, but I wish to buy a bit as a means of diversification. I number I will buy some bitcoin just to participate, however, not having traded before I was uncertain how to start.. Great guide, very well written and readable Great guide, perfectly written and easy to read. Quick and easy read, got me started in a few hours buying some coins. I purchased one bitcoin following the strategy, and by following a tips in this publication I saved considerably on the costs and got an excellent exchange rate (which frequently matter a lot more than the fees) to boot.Highly recommend those new to crypto to learn this. Exactly what I have to start trading A lot of people at my work place are buying Crypto. Very helpful A whole lot of my friends are trading crypto now, plus they recommend I look into buying some of the big threes as a "lottery" ticket. This guidebook does a

great job of laying out the purchasing process step-by-step, and I highly recommend it to anyone who wants to trade however, not sure how to begin. The book is an instant read, and gives me specifically what I need to trade. Great read, super helpful. I really appreciate how it clarifies the various types and options, and how to go about investing. Quick and easy read, got me started in a few hours . A friend who provides been trading for some time recommended that I read this reserve, and I completed it in one sitting.. It generally does not assume any prior understanding, which is excellent because I have none. I didn't want to risk trying it by myself without some guidance, which book did the trick for me. Great read on this hot topic Great summary of this ever changing field! Keep those new variations arriving as there are brand-new coins being created every day. Five Stars Solid book.
